

ABOUT ME

I am positive, driven, and curious. I love challenges and enjoy solving problems. In my free time, I train in tug-of-war and sing in a choir, and I'm always open to trying new activities. I thrive in environments where I can be creative and create functionality combined with utility.

GOAL

I always strive to improve, and I am driven by those moments when I succeed in creating what is desired, whether it's in my personal life or at work. I enjoy being able to help others and feel successful when I can make others happy.
